

Brightwell is one of Australia's oldest and most respected family owned 3PL, transport, and warehousing companies. Established in 1880 and based in [Erskineville \(Sydney\)](#), previously based in Alexandria and Sussex Street, Brightwell provides a full complement of logistics and supply chain services, focusing on container transport, warehouse management and distribution. The professional management team is experienced and qualified in each of the key management roles.

With today's competitive economic climate, Brightwell recognises that logistics services must not only be competitively priced for profitability, but also ensure top tier service levels to maintain advantage over other players in the market.

Brightwell uses the latest transport and logistics technology throughout its operations, supported by a highly skilled in-house IT specialists. The warehouse is supported by an in-house custom-developed inventory integrity system to ensure accurate stock controls and record management of receipt and dispatches. Proof of delivery and dockets are stored digitally with a RAID redundancy backup system for secure and easy access.

Services which Brightwell specialise in include:

- Container wharf cartage and storage
- Warehouse management
- Packing and unpacking of containers
- Distribution
- Picking and packing
- Dangerous Goods storage, handling and transport
- AQIS/Quarantine Approved Premise
- Inventory integrity
